**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Fiber optic cable provided by Sonic, rather than a large established company such as AT&T is important to me because it gives me the ability to have rapid connection speeds at an affordable rate. Competition breeds affordability, competitiveness and promotion of technological advancement. I am a low income citizen of San Francisco and live with many people to make it possible. We rely on a high volume data connection that simply is not provided by large companies because they don't care about their users but instead only the money they bring in. Sonic makes sharing a house with 8 other adults possible in the realm of internet.

Thanks,

Nikk Moreno
